

Multiclass text classification using RNN :

Classify News under different categories. Dataset is provided here.

Dataset description :

This dataset contains headlines, URLs, and categories for 422,937 news stories collected by a web aggregator between March 10th, 2014 and August 10th, 2014.

News categories included in this dataset include business; science and technology; entertainment; and health. Different news articles that refer to the same news item (e.g., several articles about recently released employment statistics) are also categorized together.
